

Download Gas Stoichiometry Problems And Answers

This chemistry video tutorial explains how to solve gas stoichiometry practice problems at stp and not at stp. This video covers the concept of molar volume and it contains plenty of practice ...First, we need to recognize that this is a stoichiometry problem as well as a gas law problem. That it is a gas law problem is easier to identify since the given information mentions a pressure, volume, and temperature for a gas (hydrogen). Ideal Gas Law and Stoichiometry Name_____ Use the following reaction to answer the next few questions: 2 C₈H₁₈(l) + 25 O₂(g) ----> 16 CO₂(g) + 18 H₂O(g)
