

# Download Topology Lecture Notes

X Exclude words from your search Put - in front of a word you want to leave out. For example, jaguar speed - car Search for an exact match This is a set of lecture notes for a series of introductory courses in topology for under-graduate students at the University of Science, Ho Chi Minh City. The lecture notes are based on previous lectures by Saul Schleimer and follow closely the first chapter of the book Algebraic Topology by Allen Hatcher. Introduction Topology (from Greek topos [place/location] and logos [discourse/reason/logic]) can be viewed as the study of continuous functions, also known as maps.
